LANDSCAPE ALLIANCE

CIFOR & ICRAF in action

This activity is a partnership between Landscape Alliance and the SAFE (Sustainable Agriculture for Forest Ecosystems) project, financed by the European Union (EU), the Ministry of Foreign Affairs of Netherlands and the German Federal Ministry for Economic Cooperation and Development (BMZ). SAFE is part of the Fund for the Promotion of Innovation in Agriculture (i4Ag) and implemented by Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ). The aim of this collaboration is to understand whether community forestry in Zambia is delivering the desired outcomes in terms of sustainable forest management and economic development.

The activity is also a collaboration between Landscape Alliance and the Government of the Republic of Zambia through the Ministry of Green Economy and Environment and the Department of Forestry.

The contents of this report are the sole responsibility of Landscape Alliance and do not necessarily reflect the views of the EU, the Federal Ministry for Economic Cooperation and Development (BMZ), the Ministry of Foreign Affairs of the Netherlands, or the Government of the Republic of Zambia.
